

Door County Land Trust
Ephraim Preserve at Anderson Pond

100 0 100 200 300 400 500 Feet

*Firearms are NOT permitted on this preserve. Bow hunting requires a special permit from the Village of Ephraim.

Door County Land Trust Hunting Policy 03/2009

Allowable Hunting Seasons

- **Deer Hunting** is allowed during the **bow season** and the **traditional 9-day gun season** that includes the Thanksgiving weekend. Deer hunting is **NOT** permitted on Land Trust properties during any other special firearms seasons (Youth Hunt, T-zone, muzzleloader, etc.).
- **Turkey Hunting** using either gun or bow is allowed during the **Spring** season. For safety reasons, **only bow hunting** is allowed during the **Fall** turkey season.

The following rules apply to all hunting on Door County Land Trust preserves:

- Prior to the hunt, hunters are required to contact the Land Trust by completing the Hunter Information Form on our website or sending an e-mail to hunting@doorcountylandtrust.org to register their name, address, phone number, and the season(s) and preserve(s) they intend to hunt, and to report back with the results of their hunt. By requesting this information, we can determine how many hunters have been granted permission for each site, and also assess the effectiveness of the hunting program in reducing the deer and turkey populations. A written permit is not required for the Open Hunting Seasons listed above.
- Use of Land Trust Preserves is a privilege extended to all legally-permitted hunters who abide by the rules and regulations of the WI-DNR and the Door County Land Trust. Failure to do so may result in loss of hunting privilege and if warranted, to referral to the WI-DNR and/or Door County Sheriff for possible enforcement action.
- Portable hunting stands and structures are permitted for day use only and must be removed each night. All stands and structures must contain ownership information (name, address, and phone number). If a stand or other structure is left overnight it will be dismantled and removed by staff or preserve stewards.
- Hunters are NOT allowed to cut trees or remove brush from properties.
- Baiting is NOT allowed.
- Deer drives are NOT allowed.
- Hunters need to respect adjacent private property. If a hunter needs to follow a wounded deer onto private lands, prior permission needs to be obtained from the landowner.
- Motorized vehicles of any kind are NOT allowed.
- Hunting dogs are not allowed off-leash.
- Hunters are asked to help “keep an eye” on things when hunting and to inform the Land Trust if there are any activities taking place on the property of which we should be aware.
