Hiking Trail Map

3. Detroit Harbor Nature Preserve

Intersection of Lobdell Point Road and
Green Bay Road, Washington Island

4. Richter Community Forest Nature Preserve

300 Green Bay Road, Washington Island

Preserve Acres: 307 Miles of Hiking Trail: 2

Trail Rating: Easy to moderate on level to rolling terrain

Trail and Preserve Features: Richter Community Forest and Detroit Harbor Nature Preserves are now interconnected via a Town of Washington trail. Check trailhead signs for current information. The Detroit Harbor trail leads through an impressive ridge and swale habitat dominated by old growth hemlock, some of the largest yellow birch found in Door County, sugar maple and white cedar. Richter Community Forest trail winds through a northern hardwood forest that includes sugar maple, American beech, red oak, white cedar, hemlock, white pine, basswood and ash. Spring wildflowers such as trillium, bellwort, downy yellow and long-spurred violets, Solomon's seal, baneberry, wild sarsaparilla and Canada mayflower are found in the forest understory.
